

We will start with the Enquiry question...What is a tree and how do trees begin?

We will discuss

As Readers and Writers, we will continue to build our skills in spelling, phonics and reading. We will read about native trees and their life cycle.

We will read The Barnabus Project by The Fan Brothers. We will complete written tasks relating to each section, building our skills in using our imagination, making comparisons and exploring themes of belonging, friendship, courage and accepting differences.

Emotional Wellbeing

We will spend time thinking about the school value of respect.

We will continue to explore how to identify our emotions and how to cope with them, using the Zones of Regulation. We will explore what makes a good friend and how to cope when things don't go to plan. We will explore how to ask for help and who is a safe person approach.

We will use our calm room to help us when we need a quiet space.

Maths:

We will learn about number and place value working in small groups with an adult.

We will play games to support our learning.

We will care for our class garden.

We will produce art work related to our class book and trees topic.

Value for the half term

RESPECT
